

THE PUTTING PRESS

OCTOBER 2009

R&B NEW WEBSITE IS HERE! HAMMY'S IS ALMOST DONE!

Hello again from hammy and R&B Putters! This is our third issue of The Putting Press and feedback has been excellent so far. Hot news now is that the R&B Putter website has been redone and is up and running. Make sure to check out the improvements on the site. The new hammy website is about two weeks away from being up and running again. Both sites needed major improvements and they will both be complete and fully functional by the end of October.

HighFivE

Yes, that is the new blade style putter due out in late 2009 by R&B Putters. It will have the

same radius face that the Fist-Pump has. A prototype should be in our hands by the end of the month and then production will begin on the putter. Hopefully, we can have some HighFivE putters in our possession in time for the holiday season. Make sure to check frequently on the R&B website for updates on the new HighFivE putter including pictures.

2010 Golf Shows

We are lined up and ready to go for the 2010 golf shows. In 2009, we attended three golf shows and expect to triple that in 2010 with some help from a Philadelphia based company. Our putters will be the featured putters at the shows they will be attending in 2010 and will be at the North Coast Chicago Golf Show in Schaumburg, IL from January 22-24. This will be our first golf show so make sure to stop by and see us. We will have a complete list of our golf shows in the next issue of The Putting Press and will also have them listed on our websites. Please make sure to check back frequently.

February will be the first anni-

versary of R&B Putters and we are looking for a strong 2010 season. Make sure to spread the word on the new line of putters coming.

Even the Scottish love the hammy!

WEBSITE HIGHLIGHTS

- Easier navigation.
